~~~~~

I am writing in regards to the swimming accident that happened at Saginaw High school on March 20, 2001.

I reacted to a radio call from Broderick Williams concerning a problem in the pool at approximately 1:00 p.m. I ran down to the pool and when I got there I observed a young man lying down on his back and Bobbi Fisher over him administering mouth-to-mouth procedures. William Bradley was kneeling down beside the young man with his hand on his chest trying to check for a heartbeat.
