

Uh, huh.

It was like an extra, it was like everyone got a late start. Okay, we had some of the kids, there was like 12 kids got into the pool and we had about 12 or 13 children sitting out because they weren't dressed and then so I was telling Keandra Hunt that she was doing really good and to keep up the good work. I was going back to sit down and I looked over, by this time they had finished their flutter kicks and they go over to the deep end. Six kids went to the deep end. Yea, six kids went to the deep end. And so when they went over to the deep end, we have to keep an eye on the deep end also like before we have them cause I work with the children whose like scared to put their face in the water. Scared to put they face in the water or just barely getting to the middle of the pool and so um then I was on my way to sit down and um I heard a student say, Miss Fisher, Miss Jones, Ben going to the bottom and he not coming back up and another student standing on the diving board. The student that yelled out Miss Jones was Marqueda. You know Miss Fisher, Miss Jones was Marqueda and she was looking so serious and she's not a playful student so I'm like at this time I'm getting up or if I up still I don't even remember, I was up cause I was walking back from Shay and I looked at Marqueda and she was like Miss Jones I don't think he playing and then Charles was like he playing cause I see bubbles. And then when I heard that I got up and was running over there and Fisher was running over there too and she pushed me out the way and then I was running, we still running together and we looked in the water and Ben was like uh floating like sitting not sitting but it looked like he was just floating in the water. And then um Danny was like I don't know if he was playing. We were playing a game and he didn't come back up and I'm like, I didn't say anything, Fisher was like go get him. And then Danny went back under the water and uh he pulled him up. I was standing right on the side next to Fisher and I helped pull him up and he freaked me out he scared me so bad that first
