

thing I thought was if it's freaking scaring me scaring me I need to get these kids out of here so Fisher started doing CPR and I moved out around I moved out the way. She told Jonathan, this all happened like seconds, it was like keep him coming, pull him out. Helped pull him out. You (talking to Johnathan) go call 9 push 9 and push 9-1-1. He took off that way and when I seen Benjamin I helped pull Ben up and I turned to the kids come on go get dressed and I was trying to make sure no one else was like in shock or was gonna fall in the water, too or just so scared. Two or three of the girls was crying so I grabbed them. I was grabbing them away from the water and I was walking away, and I was like go get dressed, go get dressed. And they was like, Miss Jones and I gave Charles, not Charles, I gave Mac my keys to head out, out the way, out the door to go upstairs to the gym and so he was leading out that way. It was some uh then the girls went downstairs. They came back out through the girls lockerroom and we were already in the gym.

Okay.

How many did you see in the water after he went down, do you know? Do you have any idea?

I have, I have no idea.

From the times they say he was in the water?

A minute. It wasn't even. It was probably a minute, or less than a minute, or two minutes cause you would think it would take us, it was like three steps cause we were running, it was like three steps and we were there.

Now I got some pictures that they took at the pool and if you could help us out just to kind of give us an idea and the blowups aren't too good of the pictures an idea of where everybody was standing at.
