

You can mark on the copy if you want just to give us an idea. I don't know which shot would be better to look at.

What do you want to know?

Where people were standing? Where was the teacher right before she called for help?

Where's the half mark? Oh, right here. She was about right here and I was right here.

She was standing or she was sitting?

She was sitting in the chair.

And you were?

Right here. I was right here.

Okay, you were standing right there?

I was standing right there because I was looking at her. She was right in here and I was running from here to there.

Okay and you mentioned a Chris, Christopher.

Chris?

Or who was that that was up on the board that yelled he was playing?

Oh, Charles. He was on the diving board. This diving board right here. He was like right here.

He was standing right here cause Ben and them was right there.

Okay. And there were students you said other students along the wall here somewhere?

Okay. Danny was like. Danny was on the edge. Right here. Oh, you want me to go through the class?

Yeah. The students that were in that area.

Shatara was right here. Marqueda was like right, she wasn't in the 11 feet, well she was in the 11 feet but she was like right in between there.
