Dear MS Fischer:

On September 11, 1997 an Investigatory Meeting was held at Saginaw High School regarding a parent complaint.

The Investigation revealed that you did transport three high school students from the school to your home and Saginaw Valley State University without parental permission.

The fact that this occurred as a "new" teacher and you expressed regret for your lack of judgment is encouraging. For that reason, discipline is being limited to this record of a written warning.

We trust that you will give greater care to the concerns of parents in the future.

Thank you for your attention to this matter.

Sincerely,

Brent Parsons
